PROFESSIONAL EXPERIENCE

IT Support Technician (Part-Time) | Evo Counseling LLC | Jan 2023 – Mar 2025

- Supported employees across multiple offices with Windows PCs, Microsoft 365/Outlook, printers, peripherals, and connectivity issues.
- Configured workstations, assisted with account access and onboarding/offboarding, and documented technical resolutions.
- Troubleshot hardware, software, and user issues while handling sensitive information in a healthcare environment.

Community Support Manager | Community Living Connections | 2019 – Present

- Manage operations across three programs and supervise approximately 20 employees, coordinating schedules, training, and documentation.
- Resolve urgent issues, prioritize competing needs, and communicate with staff, families, and external partners.

SELECTED TECHNICAL PROJECTS

Self-Hosted Portfolio & Infrastructure | robertbruegger.com

- Deployed Ubuntu Server on a Proxmox VE virtual machine hosted on a Dell PowerEdge T420; published site using Cloudflare Tunnel and maintained source in GitHub.

Windows Server / Active Directory Lab

- Built a simulated multi-state domain with 333 users; configured OUs, DNS, Group Policy, shared folders, and NTFS permissions; automated user provisioning using PowerShell and CSV.

Knowing 3.0 — PowerShell Desktop Application

- Developed a Windows Forms fact ticker using a public REST API, background PowerShell jobs, duplicate detection, and offline fallback facts; published downloadable source on portfolio site.
