PROFESSIONAL SUMMARY

IT Support Specialist pursuing a Systems Coordinator role, with approximately three years of professional experience supporting Windows endpoints, Microsoft 365, user accounts, device deployment, and multi-site technology operations. Associate degree in Desktop Support Technician with continued systems administration studies. Hands-on Windows Server, Active Directory, Group Policy, DNS, DHCP, Linux, and virtualization experience through academic projects and a personal server lab. Known for customer-focused troubleshooting, documentation, confidentiality, and clear communication.

TECHNICAL SKILLS

Systems & Endpoints: Windows 10/11, Windows Server 2019/2022, workstation configuration, hardware/software troubleshooting, deployment, peripherals

Administration: Microsoft 365, Exchange administration, Entra ID fundamentals, Active Directory users/groups, Group Policy, access permissions, PowerShell fundamentals

Networking & Infrastructure: TCP/IP, DNS, DHCP, network connectivity troubleshooting, Linux fundamentals, Proxmox virtualization, file shares and storage

Support & Operations: Service requests, technical documentation, end-user training, onboarding/offboarding, asset tracking, confidentiality

PROFESSIONAL EXPERIENCE

IT Support Technician | Evo Counseling | Jan 2023 – Mar 2025

- Provided end-user technical support for Windows computers, Microsoft 365/Outlook, mobile devices, printers, and related software across multiple office locations.
- Configured and deployed devices, supported employee onboarding, and assisted with user accounts, permissions, and routine administration.
- Troubleshot hardware, software, and connectivity issues; communicated resolutions to users with varied technical backgrounds.
- Handled sensitive information in a healthcare environment with attention to confidentiality and HIPAA-aligned practices.

Community Support Manager | Community Living Connections | 2019 – Present

- Coordinate multi-site operations, staff training, scheduling, documentation, and issue resolution in a highresponsibility service environment.
- Supervise and support employees, prioritize competing requests, and communicate clearly during urgent situations.

Community Support Specialist | Community Living Connections | 2014 – 2019

Delivered direct support, maintained accurate records, and collaborated with staff and stakeholders to resolve service needs.

SELECTED SYSTEMS ADMINISTRATION PROJECTS

- Home server lab: Deploying Proxmox VE on a Dell PowerEdge T420; maintain an HPE ProLiant ML110 Gen9 running Windows Server for media and file-sharing services.
- Windows Server academic environment: Built an Active Directory domain with organizational units, users, file shares, NTFS permissions, Group Policy, and Windows clients; managed hundreds of simulated accounts.
- PowerShell and Linux: Practiced administrative scripting, system status reporting, Linux account management, permissions, and command-line troubleshooting.
